

ANNUAL DIABETES MANAGEMENT CALENDAR

This is a calendar for you to coordinate your consultations with your care team. It's important to see your care team to get the best possible care. Your team may consist of a doctor, diabetes educator, dietitian, biokineticist, podiatrist, optometrist or ophthalmologist and specialist. Print this calendar out and start managing your diabetes today.

My primary care doctor's name: _____

My primary care doctor's contact number: _____

My diabetes management calendar

January	February	March	April
e.g. dietitian appointment			
May	June	July	August
September	October	November	December
